■ THE NAXOS SPOKEN WORD LIBRARY

Featuring a comprehensive collection of classic audiobooks and high quality independent publisher productions, the **Naxos Spoken Word Library** (NSWL) provides an online and offline streaming service in English, German and French for both individual and institutional subscribers.

Naxos AudioBooks is an award winning audiobook publisher producing unique literary classics and educational themed productions. NSWL offers the complete Naxos AudioBooks catalog, many available with text on screen and print features.

Also included are Naxos Educational products with a unique audiobook focus on classical music, reflecting our affiliation with Naxos, the world's leading classical music group, these titles cover lighthearted introductions to opera as well as biographies of composers and a survey of orchestral instruments.

Education

Introduce students to books above their reading level and new genres students might not otherwise consider; teach critical listening; model good interpretive reading; a read-aloud model that bridges important topics of discussion for parents and children who can listen together while commuting to sporting events, music lessons or on vacations.

Speech to Text recognition

Introduce new vocabulary or difficult proper names or locales, unfamiliar dialects or accents, Old English, and literary styles. Student users can easily repeat passages to learn how to properly read and interpret content.

Convenience

Discover the improved ease of use, low cost entertainment and uplifting benefits: a smooth and intuitive experience.

Smartphone use and mobility

NSWL can be accessed with iPhone, iPad or iPod Touch.

The NSWL app is now available through the iTunes App Store.

■ WHY NAXOS SPOKEN WORD LIBRARY?

Value for money

Naxos AudioBooks, like Naxos music label, produces first-class performances and recorded sound at an affordable price. NSWL offers the same outstanding value-for-money proposition.

Online content saves time and money

With NSWL, no lost or damaged CDs need ever to be replaced. No more worries about lack of shelf space and multiple copies are no longer necessary.

On-site and remote access

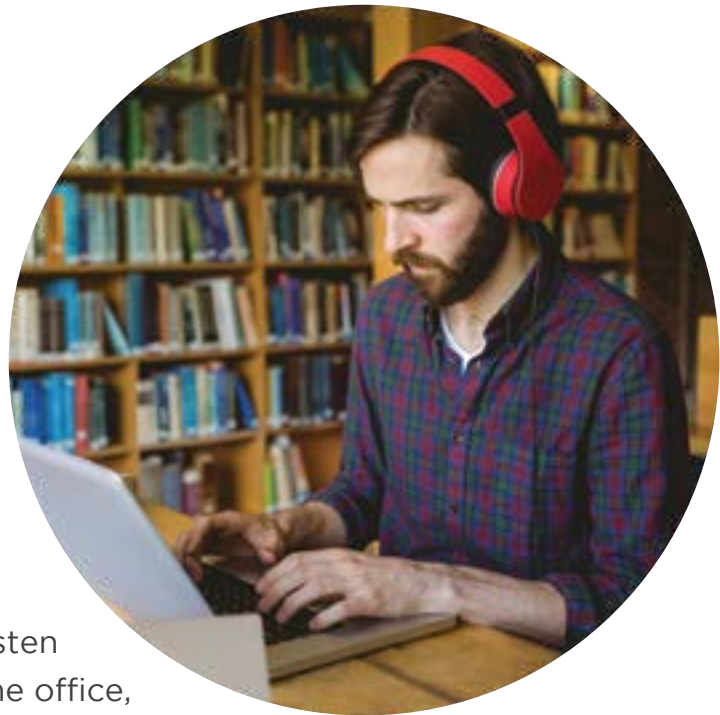

Students, teaching staff, patrons and other users can log on and listen in the library, the lecture room, the office, the dormitory or at home.

Vast range of content

Literature and poetry ranges from medieval times to the twenty-first century, and many newly written text supplement an ever-expanding range of non-fiction. As well as individuals, teachers and students may benefit from this variety, and from the skillfully abridged versions of the classics. Unabridged content is also available, with more being added monthly.

Simple set up

Set up is simple and easy. For educational institutions, Naxos will create dedicated URLs, and flexible access control through a combination of IP address check and Referring URL. Separate usernames and passwords will also be available for professors / teaching staff and library administrators.

Easy-to-use search facilities

User can choose among three different search modes:

- The Keyword Search facility is easy to use. Just enter keyword, name of author, reader or work title.
- The Browse facility allows you to browse the entire library in alphabetical order by author and/or by category.
- The Advanced Search facility allows you to search by specific authors, titles, categories and catalog numbers.

Text on screen

Text is available to follow on screen, providing a comprehensive presentation of the literature and an excellent language-learning facility. Text may also be printed.

Bookmarking

All titles can be bookmarked, enabling the user to return to any track in the story at a later date; it also allows a teacher to mark a particular section for students to access for study purposes.

Cover art and complete track lists

Original cover art and complete track lists are displayed. Users can listen to complete works or individual tracks.

In-copyright titles

Naxos has valid licenses from the publishers of in-copyright titles, allowing these titles to be streamed.

Multiple simultaneous accesses

Multiple users can simultaneously listen to the same or different content. NSWL is available 24/7 for unlimited simultaneous access.

Flexible fee structure

The fee structure is based on the number of simultaneous users, with a minimum of only five users for universities, music colleges and public libraries, and three for schools.

Registered users can be both individuals and workstations, on and off your facility.

Sound quality

We offer near CD quality.

Static URLs to track and CD

Static URL can be used to deep link directly to particular tracks. They can be sent via email, placed in teaching resources, used in PowerPoint presentations, and students can access the tracks simply by clicking on the link.

Administrator functions

Live usage statistics are available to librarians logging in with administrator / librarian usernames and passwords. Librarians can also set the maximum time for each login.

Customer Support

The Naxos global presence means assistance you may need in setting NSWL up for your institution is never far away.

Naxos, a name you can trust

Naxos has been a leader in classical music since 1987 and Naxos AudioBooks a key publisher of audiobooks since 1994. Naxos AudioBooks has received numerous international awards for its productions.
